Необычные алфавиты на уроках английского языка

Преподавание иностранного языка в школе невозможно без использования страноведческого материала. Обычно такой материал содержит большое количество имен, цифр, дат и т. д. Хотелось бы, чтобы происходило не только ознакомление учащихся с предложенной информацией, но и ее запоминание и последующее использование.

Чтобы помочь учащимся запомнить необходимое количество материала, я решила располагать информацию по той или иной теме в алфавитном порядке. Практика применения таких необычных алфавитов показывает, что ученик, зная алфавит, без труда вспоминает слова на определенную букву. Предлагаю „алфавиты”: "The ABC of London", "All about England in the ABC" и "The ABC of English Christmas". Данные „алфавиты” рекомендуется использовать на уроках английского языка в 7-11-х классах.

Ознакомление с такими алфавитами можно проводить с помощью мультимедийных презентаций, где каждый слайд представляет одну букву, слово на эту букву и краткую информацию с иллюстрацией. На первом уроке учитель демонстрирует презентации, комментируя каждый слайд. При этом можно ограничиться краткой информацией, представленной на слайде, или привлечь дополнительные сведения в зависимости от языковых возможностей учащихся.

На последующих уроках необходимо вернуться к „алфавитам”, повторить изученный материал. Затем учащиеся выполняют упражнения на закрепление и проверку запоминания страноведческих фактов.

Алгоритм работы с презентациями перед выполнением контрольных упражнений (на примере презентации "All about England in the ABC"):

по первому щелчку мыши появляется буква алфавита и ее изображение. Следует не называть сразу слово на эту букву, а попросить об этом учащихся.

После второго щелчка мыши появляется слово, что проверяет предположения ребят. Теперь учащимся следует дать краткое толкование этому слову.

После третьего щелчка появляется информация на слайде.
